## Unique designs with mergeable carpet planks

Many of our carpet tiles are developed with a gradation of color through the background yarns across the width of the carpet tiles. The progression of color occurs every 18 inches across a 6 foot width or the equivalent of six planks. Tiles will vary in color and pattern placement as to allow for mergeable carpet tiles and unique carpet design.

Our mergeable carpet tiles are designed with a progression of color that occurs every 18 inches across a 6 foot width or the equivalent of 6 planks.

## Maximize design coordination

Aladdin Commercial makes it easy to personalize your commercial space. With coordinating carpet tile, broadloom, and LVT styles; our product lines offer the design freedom needed to create unique interiors.

City Skylines Collection was designed specifically to coordinate with Metroscapes Collection. Metroscapes, a modern-day collection, has four broadloom carpet patterns inspired by timeless, vintage woven textiles.

City Skylines features two unique styles: CityScope; a carpet tile with a similar textural look to Metroscapes, and Uptown Vision; a carpet plank with a geometric visual. Both products have colors that coordinate with Metroscapes for easy design coordination throughout your space.
